

Need help choosing your coverage?

Talk through your benefit options with CPS educator **Leslie Rudzinski**.

Health and financial topics can be complicated. Sometimes walking through your choices with someone from Concordia Plans can take a big weight off your shoulders.

Hi! I'm Leslie Rudzinski, the CPS Financial Educator dedicated to serving seminarians as well as the faculty/staff at Concordia Theological Seminary, Fort Wayne. I'm available to meet with you one-on-one to discuss your Concordia Health Plan coverage or help you with your financial needs.

I can:

- Help compare medical insurance coverage options.
- Discuss personal finance basics such as budgeting, goal setting and debt management.
- Evaluate financial risk protection needs such as insurance, basic estate planning and personal spending accounts.
- Explain retirement readiness which includes our pension benefit and retirement savings plan.
- Answer questions or concerns regarding self-employment taxes.

Leslie joined Concordia Plans in 2021 as a Pension Payment Analyst. Prior to Concordia Plans, she worked in the financial space, owned her own business and served in Family Life ministry at an LCMS congregation. Leslie understands the Call process, the moves to unknown places, living on a budget, declaring housing allowances, and balancing home life and the ministry vocation. In her Financial Educator role, Leslie's focus is on encouraging the careful and responsible management of church workers' finances, so their focus is on sharing the Gospel.

Leslie has a bachelor's degree in Business Administration and Economics and a master's degree from Concordia University Seward, Nebraska in Family Life ministry. Leslie and her husband Kevin are members of St. Paul's in Des Peres, Mo., where Kevin also teaches, and have four children in all stages of life.
