* A "benefit period" begins when you are admitted as an inpatient in a hospital or skilled nursing facility. It ends when you have received no inpatient hospital or skilled nursing facility care for 60 days in a row.

** When a patient or physician requests a brand drug but an equivalent generic is available, the patient pays the brand cost share plus the cost difference between the brand and generic drugs up to the cost of the brand drug. The cost difference will not be applied to the deductible or out-of-pocket maximum.
